Health care **managers** and
professionals, educational
institutions, **government**
authorities and community
organisations

OUR VISION

Being healthy, in French,
in Alberta.

OUR MISSION

Bringing Alberta's
Francophone
population together
to work collaboratively
with health sector
stakeholders. Through
strong partnerships, we
strengthen access to
equitable and safe French
language health services
across the province.

Leadership • Inclusion • Innovation • Accountability • Equity

WORKING TOGETHER

to improve access to health care services in French.

Active Demand

Francophone population calling for culturally responsive care.

Active Offer

Active promotion of health programs and services offered in French and language support to health professionals.

Health Promotion

Creation of knowledge-sharing and decision-making tools for the benefit of our communities.

Health Data

Research evidence to inform decision-makers and managers on key health issues.

Human Resources

Support for professionals in the delivery of safe, equitable and quality health care.

KEY POINTS OF CONTACT

to navigate health care services in French in Alberta

Where To Find Health Care Professionals

RSA directory, browser, information and more!

Primary Care Alberta (PCA)

English Only

College of Physicians & Surgeons of Alberta (CPSA)

English Only

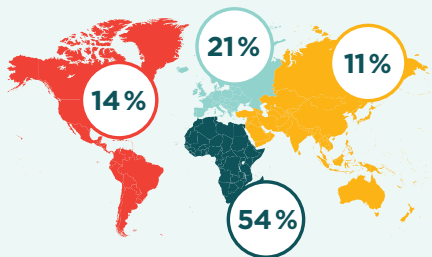

FRENCH IMMIGRANT HEALTH:

RSA and CBEP: Together we do great things!

POPULATION

Alberta's Francophone population is diverse.

Nearly 30%
were born abroad.

RSA is proud to support
the work of the Center of
Well-Being & Prevention
for African-Canadians from
Alberta (CBEP) • cbep.ca

PRIORITY

The health needs of the immigrant population are significant. There are several contributing factors: climate, lifestyle, genetics, racism, culture and language, stress, and anxiety.

ACTION

The focus is on programs that promote awareness and healthy behaviours:

- ✓ Health education
- ✓ Healthy lifestyle
- ✓ Early detection
- ✓ Information services
- ✓ Family support
